Director's Note:

Working on this show has been a great joy this summer. The story of Dr. Dolittle was always one of my favorites when I was a kid. The concept of being able to communicate with animals was very intriguing to me as a young boy. When I was 2 or 3 my family lived in a duplex next to a large cow pasture in rural Ohio. I can still remember with vivid detail sitting on the front steps with my dad practicing different types of moos to try and communicate with the cows. It was always such a thrill when they mooed back, and I felt that they really understood me. I hope as you watch this production you can allow yourself to go back to the times in your childhood where your child innocence allowed you to believe that it was possible to communicate with our animal friends, and how thrilling it would be to be the good doctor with his plethora of animal pals. Once the show is over, I hope you leave with a smile and warm place in your heart for our feathered and furry friends. Go visit your local animal shelter or animal rescue and bring some joy into your home that only animals can bring. Enjoy the show!
